

IT Security & Compliance - A Matter of Trust

Over 96% of organizations believe in establishing a strong culture for compliance. Also, compliance certification serves as a valuable seal of proof that an organization is periodically testing its posture for effectiveness.

There are immense benefits of being compliant but let us start with business benefits:

5 benefits you must consider

<p>01</p>  <p>Improves your security posture</p>	<p>02</p>  <p>Increases your brand loyalty</p>	<p>03</p>  <p>Puts you in good company</p>	<p>04</p>  <p>Saves you from legal trouble from data breaches</p>	<p>05</p>  <p>Helps you meet industry standards</p>
---	--	--	--	---

1. Improves your security posture

Compliance regulations provide you with a range of guidelines for risk mitigation and management. By implementing these guidelines, you automatically improve your security posture.

50% of businesses spend over 6 to 10% of their revenue on the costs of non-compliance.

2. Increases your brand loyalty

By achieving global security certifications, implementing data protection measures and rendering instant security, organizations improve their brand trust which results in increased loyalty.

66% of customers would turn to a competitor if the company they are associated with fails to restore systems and apps within 3 days from cyber attack.

3. Puts you in good company

When your company stays compliant in a constantly changing regulatory environment, you find yourself in a good company of reputed businesses, clients, investors, shareholders etc.

67% of companies suffer from severe reputational damage as a result of a cyber incident.

4. Saves you from legal trouble from data breaches

Organizations lose on average \$4 million due to non-compliance. Don't be one of them. Take a proactive approach, get assessed and take necessary steps to prevent non-compliance.

50% year on year increase in reported fines from data breaches due to non-compliance

5. Helps you meet industry standards

A business that incorporates security guidelines recommended by regulatory bodies enjoy a fair amount of operational efficiency and are less likely to compromise their personnel's data assets etc.

68% of companies were asked of their ISO 27001 status by their clients
