

Incidents Response Service

I Quickly Identify, Contain and Remediate incidents with experts

Leverage the expertise of incident responders to quickly control damage, protect valuable assets, and remediate at the time of cyber incident.

I Benefits

**01**

24x7 protection led by experts

**02**

Full cycle incident response with unlimited incident coverage

**03**

Expert-driven remediation (short + long cycle)

**04**

File integrity monitoring

I Challenges

A cyber event can be traumatic especially with lots of chaos and many people clueless about the next steps to take and often lose more than they expected, both in terms of money and reputation. Many small and medium enterprises, even big enterprises are unable to come up with an appropriate response and identify the right set of measures to identify the source of the event, contain the attack and remediate. The following are the challenges that are faced by organizations at the time of a cyber attack:

- ✓ Unable to identify the impacted assets or endpoints of the IT infrastructure
- ✓ Lack of analysis of the event to find out the root cause of the event
- ✓ No systematic process for containment of threats
- ✓ No process for remediation
- ✓ No clue about the roles of senior and executives at the time of event

I Our approach

Step one Information gathering

- ✓ Introductory conference call
- ✓ Interviews with stakeholders and others for information gathering Setting scope of the services
- ✓ Assigning engagement resources
- ✓ Identifying authorized accounts and client contacts'

Step Two Deploy Tools and Integrate With Existing Solutions

- ✓ Integration of existing assets and solutions with our cybersecurity platform
- ✓ Centralization of visibility of IT infrastructure cybersecurity monitoring

Step Three Evaluation and Analysis

- ✓ Identify compromised hosts and accounts
- ✓ Identify IOC
- ✓ Document time line through recurring events
- ✓ Identify forensic artifacts
- ✓ Identify exfiltrated data and methods

Step Four Containment

- ✓ Isolate hosts
- ✓ Kill processes
- ✓ Suspend threat execution
- ✓ Quarantine compromised files

Step Five Short and Long term remediation

- ✓ Take necessary remediation steps based on threat analysis
- ✓ Use hands on approach to triage with customers
- ✓ Terminate affected processes
- ✓ Implement essential security solutions
- ✓ Render suggestions for long term remediation
- ✓ End-to-end report of the entire process and analysis

Exclusive Benefits!

- Free Installation + Deployment services from our experts
